

A new event at Progetto Fuoco 2022

PROGETTO FUOCO AWARDS BEAUTY: «PRIZE X 2021» THE AWARD FOR DESIGN STOVES AND FIREPLACES

Choosing the right stove or fireplace for your home is also a matter of design. Partnership between the event and the specialized blog «Fire Observer». The award ceremony at the Fair to be held from 4 to 7 May 2022

Not just technological innovation and environmental sustainability: **the evolution of production has transformed stoves and fireplaces into real design objects.** Design that becomes an element on which the biomass heating sector rests the foundations to build its future. The attention to aesthetics and usability, its perfect insertion into the “concept” of the house are fundamental competitive factors as much as performance and energy efficiency. And on this issue the companies in the sector very often unleash their competitive leverage.

For this reason, **Progetto Fuoco** wanted to promote the partnership with the blog “**FIRE OBSERVER | Danilo Premoli**”, dedicated to design and the world of fire, which turns 10 this year and celebrates them by promoting and organizing the “**PRIZE X 2021**” open to exhibiting companies that can compete for the Award by nominating products from their catalogue. The prize, divided into two types (household appliances and industrial appliances), will be awarded based on the votes of the readers on the Fire Observer blog from September to December 2021.

The jury

In addition, a jury of experts, chaired by **Oscar G. Colli**, will award, in January 2022, a special prize among all the nominations. The jury will be composed of ten experienced professionals in the sector. In addition to the award ceremony, the selected products and winners of the award will be exhibited during Progetto Fuoco.

- **Danilo Premoli**, architect, designer, blogger. In 2011 he designed and still manages the Fire Observer blog. Since 2016 he has been a member of the Scientific Committee for the selection of the ADI Design Index for the Compasso d’Oro editions 2018, 2020, 2022. He is a member of the Scientific Committee of All Around Work.
- **Progetto Fuoco** will take place from 4 to 7 May 2022 at Fiera di Verona. More than 800 exhibitors and 65,000 expected visitors highlight its outstanding role as the most important international event in 2022 dedicated to heat and energy production through wood combustion. <https://www.progettofuoco.com/en>
